2022/3/22 (Thu.) 12:00 the pre-screening results (paper examination) will be informed

2022/3/23 (Wed.) 13:00-17:00 online pitch competition to decide the final winners

【Application Guideline】

Candidates: The main applicant shall be Tokyo Tech students

※Both individual and team applications are acceptable; non-Tokyo Tech students (e.g. from other universities and/or even non-students) can also join in case of a team application.

Name of this Project: Students' Startup Support Program by Tokyo Institute of Technology Fund

Supporting Period: April 2022 – February 2023

POC※ Supporting Amount: shall be determined based on the application (the supporting amount may differ from the amount you applied)

Max. 1,000,000 JPY support for a single application (of a significantly excellent idea and business plan of high degree of completion)

Normally 300,000 JPY support for a single application (of a good idea and business plan of high growth potential)

※Support money for POC (Proof of Concept):

- materials costs for prototyping ● costs for market survey ● travel expenses for attending other pitch competitions, etc.
- Your supervising professor shall be your budget manager of the support money provided, who shall also sign your application form.
- For B1-B3 students, Industrial Cooperation Division shall be your budget manager.
- For using the support money, the purpose should be precisely reported. The settlement shall be carried out upon each payment.
- Expensive equipment and systems shall be managed as Tokyo Tech's assets. They shall be returned to Tokyo Tech after usage.

Screening targets: Startup business and/or social business
